

2024-2025 COLLECTION

The Winter 24/25 collection is an expression of our fun philosophy designed to help you make the most of an active lifestyle.

OOSC ARE BRINGING BACK THE FUN & SPIRIT OF SNOWSPORTS

Functionality is key to our outdoor products and we have focused on a balance of fabric, fit & styling to create head-turning, comfortable, fun & functional outerwear.

We have used a nylon made from recycled fishing nets which we are excited to share with you along with our 100% recycled polyester outerwear and organic cotton soft goods

FUN, SUSTAINABLE, RETRO INSPIRED

 - Ankle Gaitors

Black Tiger Suit & Baselayers

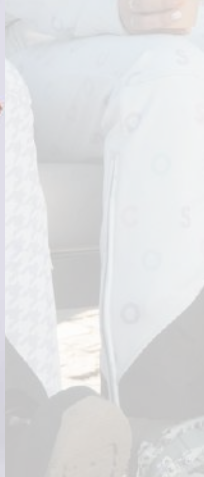

Black Tiger Pant & Puffer

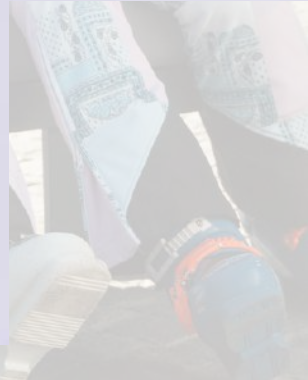

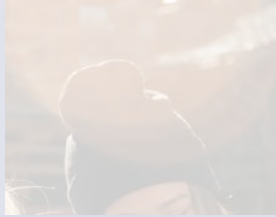

Cheetah Suit & Baselayers

A collage of images showcasing a cheetah print jumpsuit and a grey patterned baselayer. The central focus is a woman modeling the jumpsuit, which features a yellow base with black spots and grey patches on the lower legs. She is also shown wearing the grey patterned baselayer, which consists of a long-sleeved top and leggings. The collage includes several full-body shots of the woman in both outfits, as well as close-up details of the fabric and the jumpsuit's design. The background of the collage features faint, semi-transparent images of people in white protective suits, suggesting a medical or laboratory setting.
